The devastating outbreak of Ebola in West Africa is impacting the entire region in frightening ways. As populations swell in the cities where health centers are located, a growing food shortage has emerged. Quarantines, abandoned farms, vacant markets and fear of contagion are multiplying its effects. While medical efforts attack the disease, a rapidly developing struggle against malnutrition and starvation has begun.

Without access to food children and families in Liberia are facing a HUNGER CRISIS. Help us change that!

Our OneMeal program’s national campaign to provide for the people of West Africa hinges on groups like yours. Together we are packing nutritious and protein-rich meals and filling shipping containers to send to starving children and families in Liberia. You and your organization can host your own OneMeal event at the location of your choosing.

Save the date!

Sunday, April 19th

DIGNITY AND COURAGE AT THE END OF LIFE
A Compassionate and Faith Filled Response to the Push for Assisted Suicide

SAVE THE DATE - APRIL 11, 2015 | 9AM - 3PM

Following a groundswell of community response to the tragic death of Brittany Maynard, a young woman diagnosed with terminal brain cancer that travelled to Oregon to end her life, several state senators have introduced the End of Life Option Act (SB 128) that would allow California physicians to prescribe life ending barbiturates to assist patients in committing suicide.

Join fellow community and faith leaders as we discuss a compassionate response to this current legislative push to legalize physician assisted suicide and as we seek to educate and form Catholics with regard to approaching the end of life with humility, courage and love. Speakers will include healthcare professionals and physicians as well as clergy and theologians. Registration is free of charge but places are limited.

Myth busting: Comprehensive Immigration Reform

**Myth:** Immigrants don't want to learn English

**Fact:** Developing English proficiency among immigrants of all nationalities mirrors that of the immigrant experience in the 19th and early 20th centuries. While first-generation, non-English speaking immigrants predictably have lower rates of English language skills than native speakers, 91% of second-generation and 97% of the third-generation immigrants are fluent or near-fluent in English.
